

Water-Protection-Charta

1. Water is a non-negotiable human right.
2. Clean water is a basic need for the humankind.
3. Water is a precious but not infinite good.
4. Our attitude towards water has to become more problem-conscious.
5. Education in schools has the responsibility to raise awareness of water as a precious good and to change the attitude towards water.
6. The need of water connects all human beings in spite of nations, borders, ethnicities etc.
7. Nobody should own water just for means of profit.
8. Water belongs to everybody.
9. Water should be the basis of a peaceful society.
10. It is everybody's task to ensure the sustainable availability of clean water.
11. Wealthier people have to support the poorer to gain access to clean water and to help them to ensure their supply by own means.
12. We as human beings have no right to pollute the oceans, lakes and rivers as water is one of our basic needs.
